

Produktfakta

UNI Dicht är ett flexibelt sortiment av kabelförskruvningar med unika lösningar. Förskruvningarna är skonsamma mot kablarna och ger en hög dragavlastning. Färgkodsystemet på insatserna gör det enkelt att välja rätt insats. De högvärdiga ingående materialen gör att förskruvningarna klarar hårda påfrestningar och svåra miljöer. Lämpliga för applikationer inom livsmedels-, bil- och kemikalieindustrin samt andra miljöer där det ställs höga krav.

- Brett sortiment för olika kabeldiametrar
- Hög kemikaliebeständighet
- Stort temperaturområde
- Finns även utan hål för individuell håltagning

S = Hålen är inte genomborrade. I botten finns ett membran som kan öppnas vid behov. Outnyttjade hål förses med blindplugg.
